

QUICK START GUIDE

THIS GUIDE RELATES TO THE FOLLOWING STYLESHEETS:

PRODUCT: OS OPEN GREENSPACE

DATA FORMAT: ESRI SHAPEFILE (SHP)

STYLESHEET FORMAT: ESRI LAYER FILES (LYR)

The stylesheets have been designed to work with the data as supplied.

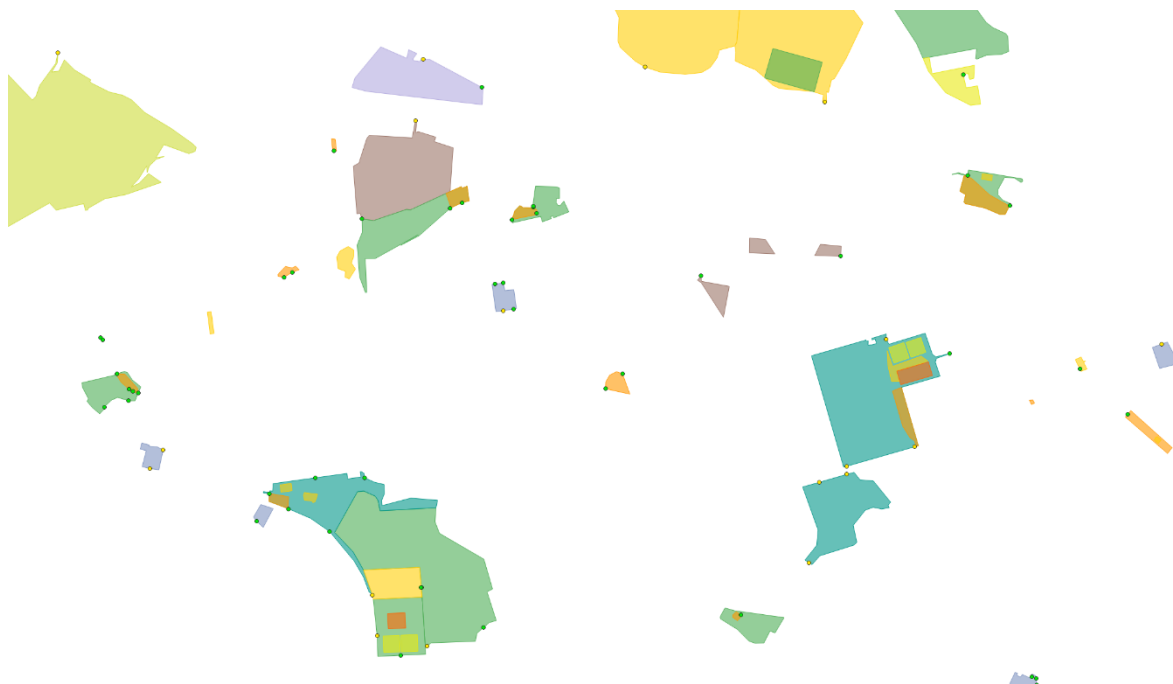

- 1 Either fork the stylesheets on [GitHub](#) or [download](#) them and navigate to the directory that matches your data format, stylesheet format and style preference.
- 2 Open a new, blank map in ArcMap.
- 3 Right-click on 'Layers' at the top of the Table Of Contents, select Properties... > then under the Coordinate System tab > choose British National Grid. You may need to reposition to the data extent.
- 4 Click on the 'Add Data' button and navigate to the stylesheets folder and the directory that matches your data format, stylesheet format and style preference.
- 5 Select the layer file and click 'Add'.
- 6 Double-click on a layer to access the 'Layer Properties' window > select the 'Source tab' > click on 'Set Data Source...' > navigate to your OS Open Greenspace data > select the relevant data > select 'Add'

Repeat step 6 for all layers if they don't link automatically.

We recommend viewing of the data between 1:2 400 and 1:30 000 for maximum legibility.

We recommend viewing the data with OS OpenMap Local and/or OS VectorMap District in Backdrop style.

Your data should now look similar to this:

Compatibility notes

Our Layer Files are compatible with versions of ESRI ArcGIS back to version 9.3 (released in 2008).
